Wasn't born here but have been here since I was 3

Beautiful mountain views

It's so not affordable than other cities..we aren't even a true city. Who the heck wrote that question? Seriously people it is not affordable to live here when you make under 30K, which is most of your residents and workers. Stop catering to second home owners and start looking into affordable housing for families or else Salida will not be able to sustain itself.

So many good reasons to be here.

Universal magnetic attraction factor, like many world travelers who have landed here.

mountains, wildlife, fishing, hunting 4wheeling, which I am sure is different from the city's recreational amenties. It was a good place at one time to raise children, but I sure would not want to raise on now in salida with the drugs that are in this town.

spiritual

physical environment

better schools, came here in 1975

close to mountains

Here to assist parents who are in their 80's

raised here

beautiful setting

Medical Accesibility and Victorian Architecture

fresh air and good water

quality of life

proximity to public lands

this is my home

It beats living in Buena Vista.

Well maintained parks & river walk, many good shops and restaurants

Great trails!

Biking and hiking trails from town are very important

Live nearby in Custer County

Moved here when I was 18 to be a ski bum for a winter and never left. Since 1981 I've seen a lot of changes in our area. The growth has caused many issues that the communitis have not kept up with. Additionally I think that the new folks that move in what to change the small town into something other than a small town that Salida originally loved.

I don't believe we should focus on any one main economic development focus but try to diversify the economic development of our community.

streets-sidewalks

Affordable housing

taking care of those who live here, repair streets

housing

tap into thermal energy

stop urban sprawl and protect agriculture lands

industry job that pays good wages

curb appeal

constituents

fix streets, its embarrassing (for tourists)

living wages

You cannot just focus on one item because one effects the other

Keeping the trust of the current property owners

work towards becoming destination resort

Encouraging local food entrepreneurs to increase community resilience

art district

Creating Jobs

Basic Maintenance

affordable housing

Solar/wind

Difficult to name one: Tourism, support existing businesses, manufacturing

Get good paying employers and businesses

Support existing families

Affordable housing

affordable housing

Sustainable jobs with a sustainable pay.

building/inviting an industry that promotes sustainable growth

learn to teach-stop building ugly schools  
affordable housing  
affordable housing  
The business of art  
none of the above, stop making business the prime motivation and look at quality of life  
keep the small town feel- that is the economic draw to Salida  
small town atmosphere  
affordable housing  
employment opportunities  
infrastructure  
abatement of noise, light & air pollution; and general ugliness of recent "improvements"  
improve infrastructure & restore confidence in city council which would benefit all of the above  
Tied for first with recreation & trails  
supporting the local citizens- attainable work, housing, recreation for those who live here  
bringing business to the community thus creating jobs  
more of a Colorado Mtn College presence  
grow cmc  
jobs  
affordable housing  
affordable housing  
infrastructure  
bringing new business to Salida  
I don't think there can be 1 main focus -  
increased employment opportunities  
Affordable housing  
getting priorities straight for the good of the city  
tax credit for new employers  
one is not enough, ranking system would be better  
bigger tax base - let businesses in; everyone shops at Amazon due to the area limitations & cost  
affordable housing  
diversify! develop job opportunities other than tourism  
as worded this question cannot be answered - there's always more than one focus  
maintain historical ambience & be a tourist friendly environment  
make our town appealing to business that want to locate here  
Bring high tech jobs to the area  
Quality of life for all residents!  
Ask us to rank, not pick just one

Affordable Housing... The cost of housing is pricing a lot of great people out of here.  
 fostering well being of current citizens and businesses  
 Support existing business, and focus on new high tech jobs  
 making it affordable (wages, amenities and housing) for year-round working folks like myself  
 Improvements that benefit locals AND make the town more attractive to tourists.  
 support all businesses new and existing; Tourism  
 Hot Spring Pool development and surrounding park  
 AFFORDABLE HOUSING

Doesn't make sense to me to have 1 focus - Tourism, local business and rec and trails are all  
 closely linked. encouraging renewable energy and bringing in a college would be great  
 More jobs with benefits  
 bring a college to Salida  
 None while housing is so high.  
 affordable housing to keep families here  
 Affordable housing for the workforce community  
 The River  
 supporting locals who pay taxes & live here year long  
 Diversifying employment base  
 Affordable housing  
 Tourism, and trails but not at the expense of locals and local businesses.

Job opportunities with salaries that match or exceed cost of living don't exist - many can't afford to live here

dope houses- they need to go away

Streets and sidewalks repair

Telecommunications

I think 5 years is a very short window. Elected officials don't think long term. Water may become critical at some juncture. Again, let us rank 1-14.

attracting SUSTAINABLE businesses to Salida

Rentals for residents not just VRBO's

expanding each year deer population with the city and Parks continuing to sit on the problem rather than taking ANY action

Fixing the damn streets.

fair government

first helping the citizens who live and work here- not tourism/ which only helps a few

I don't get the fuss over streets. They are fine. Spend the money enforcing the speed limit and keeping the kids in their loud trucks and motorcycles from disturbing the peace.

Motorized Trails  
 clean sidewalks downtown

Would focus on bike lanes and safety on Hwy 50  
 bike parking

I have seen some interesting trails instead of sidewalks that separate cars and bikes.  
 more traffic lights on Hwy 50 or pedestrian bridge  
 how about not spending money

street repair  
 ticketing bikes breaking traffic laws  
 pool improvements  
 handicap parking downtown  
 curb and gutter on poncha blvd  
 rent station for townie bikes  
 taking better care of our teachers because they are taking care of our children who will be caring for us  
 improve downtown sidewalks - upgrade the look of downtown  
 better street markings and intersection signage (esp. placement and tree trimming)  
 Many streets and sidewalks are so far gone I don't see how you will catch up.  
 bike/walking trails connecting all parts of town for safety  
 more free shuttles for getting around town  
 also more downtown parking and handicapped zones

the city administrator and part of the council is out of control, Just spend, spend on things that are not necessary. They need to get a reality check and use the taxpayers on needed stuff. They need to get the silver spoon out of their mouth and use the taxpayers money with some common sense.. This music festival is a good example. Lets get real--30,000 to 35,000 in town. The water and sewer usage will be unbelievable. Who pays in the long run--THE TAXPAYERS with higher rates to pay for water treatment and sewer plant wear and tear. No common sense used on this event..

Council's division & inability to agree - always 3 against 3.

government that thinks they have to do more, especially for businesses

a city council with a common sense

3 back stabbing council, science deniers backwards

streets and sidewalks reflect neglect

It has ran Salida down to a level not seen since the 80's

I think the city was moving in the right direction until the current council. The negativity and lack of cooperation is taking us backward. We need to move the city forward. Families are moving away because they can't afford to live here even with a job. We need to go back to the forward thinking choices of the council under Chuck Rose's leadership. Much smaller towns have beautiful recreation centers. Why don't we? Why aren't we making the pool an incredible asset that people would make a special trip to enjoy? I saw the plans for it. Let's keep moving forward.

second homeowners and vacation rentals are a huge problem

Good, city, good pro active government

poor upper

Should target conservation rather than expansion

Development seems unfocused, character of town is being lost, and cost of living is too high relative to income opportunities

The standard of living is pretty low here. I have 2 degrees, work in what is considered IT and still cannot afford a home or to set down roots. It's insane. There isn't any

economic growth, or job stability which causes small business to be allowed to pay their employees very minimal and still retain employees because there is no

competition. If I worked the same job in Denver I would be making close to 50K a year instead of 24K. We just spent all this money on new schools, but families are having

an incredibly hard time making it financially here. If you have to work 3 jobs to support your family, you aren't spending time with them and aren't spending time at Salida

Rec, SteamPlant, or any of the other opportunities out there. We need sustainable growth: education (approve and court a college to set up here), sustainable energy and

technology firms. Those will do much more for the area than retail.

Besides the last election :(

1. Highway bike lanes, which is unsafe to cars and bikers, when bikes can use the monarch spur trail(which was built for bikers) to get around now clear to walmart. But

we will wait until someone is killed to realize this was a mistake. 2. The vacation rental homes are not fair to our motels and hotels and the neighbors that have to live next

door to one. Never know who or what type a people are in them and they lower the value of the homes around them. Same goes for the accessory dwellings that are

rented out nightly, which is against the law, but no one checks on them. 3. Too much spending on SPECIAL INTEREST GROUPS. 4. The steam plant spending. The cost

they charge to rent the rooms should cover its expenses, if not, if it can't make it like personal businesses. then close it. 5. Basically, too much spending on things that are

not needed. Like Keith Baker article in the newspaper. live with a reality budget.

e it

many of the working class are having to relocate -due to vacation rentals, 2nd homes & the buying market is impossible

dysfunctional city council and mayor

It seems no one cares about the locals. It's all about the money and the tourists. Locals need affordable housing, and jobs. Not more vacation rentals and art galleries. Also, the city council, mayor, and city administrator need to listen to the people, and not do whatever suits their own agendas.

NO THE CITY ADMINISTRATOR, POOL SUPERVISOR ARE VERY OVER PAID. THE MAYOR IS A JOKE AND HAS NO IDEA WHAT IS GOING ON WITH THE CITY COUNCIL OR THE CITY, THE COUNCIL IS A JOKE THEY ACT LIKE 2ND GRADERS. THE SALIDA POLICE DEPARTMENT AND IT'S OFFICERS ARE RUDE AND ABUSE THEIR AUTHORITY, THEY HARASS AND PICK ON THE YOUTH OF SALIDA. THEY DO NOT PROVIDE 24 HOUR COVERAG, I REMEMBERF WHEN CHIEF CABLE HAD 5 OFFICERS AND THEY PROVIDED 24 HOUR COVERAGE. IT IS SAD TO SEE A BEAUTIFUL TOWN RUINED BY ALL OF THE ABOVE  
Focus has been too much on economic growth and less on stabalization and sustainability of what we currently have.  
Housing prices are too high.  
the streets in and around town are bad  
Too much effort on appearances/tourism, not enough on resident's needs  
I'm concerned about the increase in 2nd homes and short term rentals

In efforts to preserve 'small town' feel, Salida and it's people are being choked.  
city in the best shape ever!  
don't need to be realtors  
city government ignorance  
no good can come from legalized dope houses, only bad  
Affordable housing and living wage jobs need to be a more dire priority of the city.  
your changing our small town atmosphere into a gentrified Vail or Aspen where the working class can't afford to buy a home or live here  
should be a third choice: "depends", on which issue  
use tax money more wisely-no debt  
city management out of control  
lack of concern for low incomes and high cost of living  
City government has grown and the population has not.  
not enough transparency although I approve of most of the policies  
City Administration blatantly ignores citizen perspective, and operates entirely on few individual City employees' agendas.

The city government has difficulty with "transparent" accountability. It appears that appropriations for salaries/bonuses collide with funding projects that voters have approved. Additionally, the "right direction" means what? A specific growth plan that identifies how new subdivisions will be allowed, specific development of the Vandevier Property, infrastructure needs vs. recreational wants are all very nebulous. For the fact that there is even a question #16 on this survey is a sad commentary on the direction our town is moving in. The hotel/motel industry has every right to be unhappy about the lack of lodging taxes being collected on vacation rentals when their motels/hotels are required to pay taxes to the city. If the last 5 years is any indication of where the next 5 years is headed, our Salida community will remain in conflict.  
too much focus on tourism. this just makes the problem of low paying jobs and overpriced housing worse

We bought 2 properties in town approx. 9 years ago. 1 residential and 1 commercial. The commercial taxes and the appraised value on the building are not good investment and we still wouldn't make a decent return if we would sell today. Local businesses can't afford to own buildings so they rent and then have issues with landlords. If we want sustainable business we have to lower taxes and help support the local economy.  
need to focus on building infrastructure  
Do you mean Salida or Salida's government?  
tuch development of tourism, too much, too fast decisions  
Vandevier Ranch development, legalized marijuana, trying to use dedicated street and sidewalk tax dollars for other things, lack of transparency  
Despite efforts by the CAG group to the contrary  
The focus has been all on arts, not growth or family values including the rec program.

Priorities sometimes misplaced

Not sure

But the city is becoming much too expensive.

All the city council does is fight. I watched a meeting on TV and I was embarrassed at how they treated each other. I can't imagine how anything worthy gets done, by what I read in the paper it is always 3 to 3 on votes and the mayor most of the time votes for the one side. It just seems that it is always one sided.

It was the right decision to 'spruce' up areas which we all use together....Steamplant....Touber....parks....etc. What was NOT OKAY was ignoring citizen voted mandate to fix roads first. Should have brought issue back to voters rather than plow ahead. It set up resentment and trust issues that we are still dealing with, ie the recent vote.

Too many taxpayer \$ to subsidize certain existing business interests.

The make up is changing at a rapid rate. The city is aging to fast. Need to keep youth, i.e.. affordability, jobs  
Population growth has been static for over 50 years. Investing in economic growth and encouraging new businesses, new home owners (even 2nd homes) spurs economic growth. More city sponsored events also promotes Salida to outsiders.

The arts community is growing on it's own and Salida is attracting plenty of tourists and well-off retirees. Now we need to focus on those that do the jobs that keep the city running, all the unglamorous jobs that keep our seniors in a retirement home (which by the way is more of a prison) working service jobs, etc. It sickens me that the city seems to care so little about the plight of it's working class. I came here as a professional artist and have cleaned toilets to survive. I'm not beneath that, but the real estate and rents are virtually impossible for anyone not comfortably middle class. If it were not for housesitting I would have left long ago.

We need better spending reporting

City Council should never have been involved in funding Vandaveer with taxpayer money. That should have all been privately funded.

Too much controversy among council representatives

water is too high due to growth with no jobs

streets are in terrible shape.

expalin the line item - "miscellaneous \$100,000" - in the budget

Too much bickering on City counsel, Big shots have too much sway in town affairs

high rents, no job opportunities

corrupt totalitarian government

Mismanagement of properties the city owns is one problem

too concerned with growth at expense of quality of town

Too many city departments.....and buying Vandevere was a huge mistake

Divided City Council members.

Spending money on art from another town and not from an local artist.

too many behind the scene moves; loss of community trust, really? a pay me even if I'm fired clause for Dara McDonald

a stable community that can afford to live and work here is the basis of a strong community - not tourism - which helps the owners of rafting, arts, restaurants, not the worker bees

City Council not moving us in the right direction

The Community is being lost to petty disagreements and banter. The public dialogue and soapbox antics distract from Salida becoming a gem.

liveable houses in this area that a lower middle class family can afford. Especially if there are no children in the family. The housing market is being gobbled up by vacation renters, second homeowners, and wealthier families who can come in and actually afford to pay \$1,500 a month for a two bedroom house with no yard. The City can cater to tourists/retirees all they want but they are not the backbone of this community - the hardworking natives are.

Many bad decisions by Dara McDonald

Too much growth

Overpaid and underperforming city employees are a huge drag on the system

Tourism seems our only concern at times

Attracting mobs of undesirable visitors for the wrong reasons--eg. liquor festivals, booze-a-thons a la FIBArk, noisy motorcycle & bike rallies, 35,000-person music festivals--that do little but line a few pockets, inconvenience the people who live here, and erode our small-town peace and tranquility.

ABSOLUTELY not!!! Too much interest in everyone EXCEPT the locals. Stop waiving fees for events; the fee structure should be enforced. STOP encouraging outsiders from taking over the town ALL summer! development

There are so many personal agendas at work. Why do we close vehicle/fire roads to create bike trails? Is the fire department now to ride their bikes to put out the fire that will come? Are they to use their bike water bottles to put this fire out? How's this gonna work out. Let's look at CA and see how all these types of changes have worked for them, not well, and will not work for us. I think that management of Salida does not have maturity or experience needed for this growth oriented community. Sorry folks!

Not sure they're really listening to community members. Developers have their way almost every time.

This area seems to be run by people that aren't from here. Lack of communication with tax payers/ homeowners
