Management's Discussion and Analysis
(Required Supplementary Information)

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's discussion and analysis (MD&A) provides an overview and highlights of the financial activities of the City of Salida (the City or Salida). We encourage readers to consider this information in conjunction with the basic financial statements and information contained in the notes to the financial statements.

Financial Highlights

- Salida's financial position remained stable during 2008. Revenues exceeded expenditures largely due to continued budgetary controls over spending and increases in sales tax collections and fees for services during 2008.
- The assets of the City of Salida totaled \$34,638,414 and exceeded liabilities by \$24,388,199 at the close of calendar year 2008. The \$2,182,250 increase in net assets during 2008 was primarily driven by the results of City's business-type activities.
- Unrestricted net assets of \$4,963,340 as of December 31, 2008 were available to meet the City's future obligations to citizens, employees and creditors.
 - For government activities - \$1,270,989, a decrease of \$397,191 (23.8%)
 - For business-type activities - \$3,692,351, a decrease of \$1,747,257 (32.1%)
- As of December 31, 2008 the total fund balance for governmental activities was \$4,112,613, of which \$168,462 was in the Conservation Trust Fund. The total increase in the governmental fund balance during 2008 was \$208,503 (5.3%).
- As of December 31, 2008, the unreserved general fund balance was \$1,376,586, or 31% of the 2009 budget for general fund operating expenditures.
- Total cash and investments were \$8,112,044, of which \$4,192,792 was unrestricted. Unrestricted cash and investments held in the funds for business-type activities totaled \$2,849,906, and \$1,342,886 was available for general government activities. Funds designated by council for specific uses are included in unrestricted cash and investments.
- A capital improvement project and the establishment of a new business-type fund for the SteamPlant Theater and Event Center (SteamPlant) was paid for, in part, through a \$504,186 transfer from the general fund. A \$500,000 state grant and other contributions totaling \$220,000 provided the remaining project funding.
- Although Salida's population has not recently increased, the City is experiencing significant development activity requiring municipal resources and foresight of its leaders and staff. The City invested \$4,532,145 in capital assets to serve public health and safety needs, replace aging infrastructure and enhance the quality of life for its citizens.

Overview of the Financial Statements

The MD&A is intended to serve as an introduction to Salida's basic financial statements, which are comprised of three components:

- 1) Government-wide financial statements
- 2) Fund financial statements
- 3) Notes to the financial statements

Financial analysis and commentary on both types of financial statement views is included in the MD&A to provide readers with more detail and perspective beyond simply the numbers. In addition, the report contains supplementary information to the basic financial statements that provide more detailed information for readers.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business. Government-wide financial statements combine information for all of the City's funds that reflect the entire financial picture. The government-wide financial statements consist of the *Statement of Net Assets* and the *Statement of Activities*.

The *Statement of Net Assets* presents all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the City's financial position is improving or deteriorating.

The *Statement of Activities* presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the changes occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g. taxes earned but not collected and unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*government activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). Salida's governmental activities include general government; public safety; public works; and culture, parks and recreation. Business-type activities include the operations of water and wastewater treatment facilities and of the SteamPlant Theater and Event Center.

The government-wide financial statements can be found on pages 2-3 of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Salida, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of Salida's funds can be divided into two categories: governmental funds and proprietary funds. The fund financial statements consist of the

Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances for each type of fund.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *government activities* in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for government funds with similar information presented for government activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the *Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances* provide a reconciliation to facilitate this comparison between governmental funds and governmental activities as presented in the government-wide financial statements.

Salida maintains two governmental funds. Information is presented separately for the General Fund and the Conservation Trust Fund. Salida's city council adopts an annual appropriated budget for all its funds. Included in this report is a budgetary comparison statement for all funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 4-6.

Proprietary funds. Proprietary funds can be *enterprise funds*, to report the same functions presented as *business-type activities* in the government-wide financial statements, or *internal service funds*, used as an accounting device to accumulate and allocate costs internally among the City's various functions. Salida maintains one enterprise fund to account for the Water and the Wastewater Treatment Utilities. In 2008, a new enterprise fund was established to account for the SteamPlant Theater and Event Center, which the City began operating following renovation and expansion completed in July 2008.

Proprietary funds provide the same type of information as the government-wide financial statements in more detail. The proprietary fund financial statements provide separate information for the Water Utilities and the Sewer Utilities which are considered to be major funds of the City of Salida Water Activity Enterprise Fund.

The basic proprietary fund financial statements can be found on pages 7-9 of the report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 10-31 of this report.

Supplementary information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's compliance with

the appropriated budget for the year ended December 31, 2008 and the Local Highway Finance Report. The Budgetary comparison schedules are on pages 32-41 of this report and the Local Highway Finance Report is included at the end of this report.

Financial Analysis – Government-wide Financial Statements

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Salida, assets exceeded liabilities by \$24,388,199 as of December 31, 2008.

Statement of Net Assets. At December 31, 2008, a substantial portion of the City's net assets (\$15,190,166 or 62.3%) reflects its investment in capital assets (e.g. land, water rights, buildings, roads, machinery, equipment, etc.) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the City's investments in its capital assets is reported net of debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves generally cannot be used to liquidate these liabilities.

An additional portion of the City's net assets (\$4,234,694 or 17.4%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$4,963,340 or 20.3%) may be used to meet the City's ongoing obligations to citizens and creditors. Of the unrestricted assets, \$3,692,351 (74.4%) are held in the business type activities.

Statement of Activities. The following table illustrates the components of the \$2,182,250, or 9.8%, increase in the City's net assets. The 2008 statement of activities for all funds is also compared to the previous year.

	Governmental Activities		Business-type Activities		Total Primary Government		Year over Year Changes	
	2008	2007	2008	2007	2008	2007		
Revenues								
Program revenues:								
Charges for services	\$ 532,375	\$ 454,070	\$ 1,955,249	\$ 1,690,805	\$ 2,487,624	\$ 2,144,875	\$ 342,749	16.0%

Public works	439,657	516,914	-	-	439,657	516,914	(77,257)	-14.9%
Culture, parks & recreation	731,879	1,083,304	-	-	731,879	1,083,304	(351,425)	-32.4%
Principle & interest	879,988	270,668	251,973	181,058	1,131,961	451,726	680,235	150.6%
Water operations	-	-	846,239	787,322	846,239	787,322	58,917	7.5%
Sewer operations	-	-	766,932	759,659	766,932	759,659	7,273	1.0%
Event center operations	-	-	239,311	-	239,311	-	239,311	
Transfers	504,186	-	(504,186)	-	-	-	-	
Total expenses	\$ 5,583,575	\$ 4,586,817	\$ 1,600,269	\$ 1,728,039	\$ 7,183,844	\$ 6,314,856	868,988	13.8%
Increase in net assets								
Beginning net assets	10,833,430	10,005,621	11,372,518	10,180,016	22,205,948	20,185,637	2,020,311	10.0%
Ending net assets	\$ 10,981,252	\$ 10,833,430	\$ 13,406,947	\$ 11,372,518	\$ 24,388,199	\$ 22,205,948	\$ 2,182,251	9.8%

By fund group, governmental activities increased the net assets by \$147,822, or 1.4%, and business-type activities generated a \$2,034,429, or 17.9%, increase in net assets. Both revenues and expenses exceeded the prior year levels.

Key elements of the \$147,822 increase in net assets for governmental activities during 2008 are as follows:

- Charges for services increased \$78,305 (17.2%) due to a mid-year increase in pool usage fees along with new charges for fire inspection fees implemented in 2008.
- Sales tax receipts increased \$146,274 (4.0%) over the prior year due to higher taxable sales in the City and Chaffee County.
- Franchise tax receipts increased \$49,970 (26.8%) due primarily to an increase in the percentages charged for the natural gas franchisee in the City when the agreement was renegotiated during 2008.
- Capital grants decreased \$212,556 (72.9%) due to the timing of a state grant recognized in 2007 for construction of new soccer fields.
- Other revenue increased \$267,970 (110.9%) primarily from \$367,321 in proceeds from the sale of the property formerly used for a public works facility along with sales of several vehicles and pieces of obsolete equipment. The net increase was offset, in part, by a decrease in interest revenue of \$43,944 (32.7%) due to lower levels of reserves and a drop in interest rates.
- Total expenditures increased \$996,762 (21.7%) from 2007 to 2008. Approximately half of this increase was due to a \$504,186 transfer from the general fund to the new SteamPlant fund. Other factors contributing to this increase were personnel costs from the turnover of the city administrator position, larger legal fees and facility costs associated with a building purchased for future use as a new city hall and police headquarters.

The following chart shows the general fund revenue provided by each source during 2008.

Governmental activities were financed primarily by city and county sales tax revenues, which provided two-thirds of all funding in 2008. Property, franchise and other taxes provided 9.3% of revenue. Non-recurring funding through asset sales provided 6.5% of 2008 revenue. All other sources including fees, licenses, grants, fines, rents, and interest income provided the remaining 26.9% of revenue in 2008.

Key elements of the \$2,034,429 increase in net assets for business-type activities during 2008 are as follows:

- Charges for services increased \$264,444 (15.6%) due to increases in the volumes of water used and wastewater treated and in the rates charged for water usage.
- Capital revenue increased \$427,343 (41.0%) primarily due to a state grant and matching funds contributed by Chaffee County for the SteamPlant capital project. In addition, the wastewater system development fees were doubled in the middle of 2008, resulting in a \$40,725 increase in revenue despite a decline in the number of new taps. The total increase in capital revenue was offset, in part, by reduced grant revenue for a water project and slightly reduced water system development fees.
- Total expenses increased by \$376,416 (21.8%) primarily due to the addition of the SteamPlant Theater and Event Center operating costs. In addition, interest expense increased \$70,915 (39.2%) due to the outstanding balance on the water and sewer bonds refunded in December 2007, resulting in a higher average outstanding debt balance in 2008 compared to 2007. Expenses for water operations increased \$58,917 (7.5%) primarily due to engineering costs.

The following chart demonstrates the current level of recovery for the City's water and sewer activities and of the start up activities of the SteamPlant Theater and Event Center.

Financial Analysis – Fund Financial Statements

As noted earlier, the City of Salida uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Salida's financial requirements.

As of December 31, 2008, the City of Salida's governmental funds reported combined ending fund equity of \$4,112,613, an increase of \$208,503 compared to December 31, 2007. The unreserved fund equity, which is available for spending at the City's discretion, represented 37.6% or \$1,545,048 of the fund equity. The unreserved fund balance for the General Fund is \$1,376,586, while \$168,462 of unreserved fund balance is in the Conservation Trust Fund. In addition, the city council may designate portions of the unrestricted cash and investments for specific purposes. As of December 31, 2008, the City no longer reflected a receivable balance for property taxes because it repealed its property tax assessment.

The General Fund is the City's primary operating fund. All activities which are not required to be accounted for in separate funds either by state or local ordinance or by a desire to maintain a matching of revenues and expenses are accounted for in this fund. The Statement of Revenues, Expenditures and Changes in Fund Balances shows that in 2008 General Fund revenues exceeded expenditures by \$174,469. This was primarily the result of one-time asset sales combined with controlled spending based upon expected revenue levels.

The Conservation Trust Fund increased the fund balance by \$34,034 due to the deferral of certain capital projects planned for 2008. The Conservation Trust Fund receives money from lottery proceeds that are distributed to local governments based on population.

Proprietary funds. The Statement of Net Assets and Statement of Revenues, Expenditures and Changes in Fund Balances – Proprietary Funds provide the same type of information found in the government-wide financial statements but in more detail.

Total unrestricted net assets as of December 31, 2008 were \$3,692,351, a decrease of \$1,747,257 from December 31, 2007. The decrease is due to the use of reserves for capital improvements. The unrestricted net assets equal 220% of the Proprietary Fund 2009 budgeted operating expenditures. However, some of these funds are expected to be used for major capital improvements to the wastewater treatment plant needed within the next couple of years.

The investment in capital assets net of debt increased by \$2,946,097 in 2008 primarily due to the costs associated with a new high zone water tank and transmission lines. In addition, the City is upgrading its water meters and continues to invest in capital projects to extend the life of its streets and other infrastructure. These capital assets are necessary to generate future revenues for the water and sewer funds.

The Statement of Cash Flows provides additional information on the sources and uses of cash for the proprietary funds. Operating activities continue to generate increased levels of revenue due to rate increases and additional customers. Both water and sewer operations generated cash, which will be needed for future capital projects. The SteamPlant is not expected to breakeven or generate cash in its initial years of operations.

Budgetary Highlights

The original budget, final budget (which includes amendments passed by council during the year) and actual expenditures for each fund are shown on pages 32 through 41.

General Fund. Actual financial results were favorable to the budget due to greater sales tax collections and franchise taxes as well as the sale of obsolete equipment that had not been planned during 2008. Actual expenditures were less than budgeted.

The final general fund expenditures budget was amended to include \$800,000 for the acquisition of a former hospital building purchased jointly with Chaffee County to be renovated for use as a community services complex (CSC). Actual results also show the issuance and repayment of \$720,000 in short-term financing that was repaid prior to the end of the year. In addition, expenditures show \$200,000 in cash and \$304,186 in capital assets contributed to the SteamPlant fund during 2008.

Water Enterprise. Operating results of the water fund were favorable, with the exception of a budgetary variance due to the timing of grant revenue. The Salida municipal code provides for annual increases in the rates customers pay for water services. This price increase, along with growth in the number of customers, led to an increase in operating revenue. The City added 11 new customers and the average revenue per customer increased compared to 2007. Total operating expenditures approximated the approved budget figures; however, capital expenditures were 10% less than budgeted due to delays in the completion of the high zone water tank and transmission lines.

Sewer Enterprise. Operating results of the sewer fund were favorable, driven primarily by an increase in metered sales. System development fees exceeded the budget by \$119,650 due, in part, due a 100% increase in rates effective in July 2008. Both operating and capital expenditures fell short of the approved budget.

SteamPlant Theater and Event Center Enterprise. 2008 financial results reflect pre-opening costs and six months of operations of this newly renovated and expanded facility. Formerly a standalone theater owned by the City but operated by a nonprofit group, this property now contains a ballroom and annex available for weddings, business meetings and a variety of other events. The expansion was partially financed through Chaffee County, which was awarded a \$500,000 state grant and contributed \$180,000. The City entered into a \$530,000 lease purchase agreement to finance its portion of the matching funds. The City also contributed \$304,186 in capital assets from the general fund and \$200,000 in cash for operations. It is expected to contribute to economic development in the region as Salida now has a facility to host events that it previously could not accommodate.

Long-term Debt

As of December 31, 2008 the City had total long-term financing obligations outstanding of \$9,522,417, with \$1,116,480 due within one year. The general fund had obligations of \$3,873,764, with 438,796 due within one year. Compared to total net assets, the City's long-term financing obligations were 39.0% at December 31, 2008, down slightly from 40.3% a year ago.

Total bonded debt at December 31, 2008 was \$1,175,000 and \$3,845,000 in the general fund and water and sewer enterprise fund, respectively. The City's bonds are not rated.

A new lease purchase agreement was entered into during 2008 that provided the City's \$875,000 portion of the purchase price and acquisition-related costs of the former hospital building located in downtown Salida. The City and Chaffee County own this facility as joint tenants and will complete a major renovation converting it for government services use. A second phase of financing was closed in early 2009 to provide an additional \$1,100,000 toward the total renovation costs.

The City repaid a portion of its long-term obligations in advance of their maturity during the first half of 2009. The principal amounts paid off consisted of the following:

- 2004 Vandaveer Note – \$1,621,016 (general fund)
- 2004 Vandaveer Note – \$736,825 (water and sewer enterprise fund)
- 2006 Equipment Capital Lease – \$202,748 (general fund)
- 2006 Equipment Capital Lease – \$117,695 (water and sewer enterprise fund)

Please see note 4 on pages 19 through 26 for additional information about long-term debt and financing arrangements.

Economic Factors and Financial Outlook

City sales tax revenues are expected to increase by 33% in 2009 due to the passage of an incremental 1% to be used for public infrastructure. The City will collect 3% of taxable sales effective January 1, 2009. In addition, the county allocates a portion of their 2% sales tax to the municipalities within the county. The 2009 budget assumes that taxable sales within the City and county will be flat compared to 2008. Voters also approved a new revenue source, a lodging occupation tax, which will become available to use for parks, recreation and arts facilities.

Due to the new or incremental revenue sources and a number of capital projects, the 2009 budget includes an increased level of spending compared to historic levels. Grant revenue of nearly \$2 million will offset the majority of the net budgetary impact. Significant capital investments include a new city hall and police headquarters as well as the refurbishment of the water line that delivers hot springs water to the municipal pool. The City's investment in road improvement projects will also increase in 2009. The City will borrow funds to finance a portion of capital spending needs in 2009.

The new high zone water tank and transmission line is expected to be completed during 2009. The majority of capital spending within the enterprise fund will then shift to the upgrade needs of the wastewater treatment facility. The City anticipates the issuance of debt to pay for a portion of future capital investments. It is also seeking grant funding to assist with these significant upgrades.

Appropriations for the 2009 budget are \$13,952,853, of which \$9,960,699 is for governmental activities and \$3,992,154 is for business-type activities. The budget for 2009 includes using Economic Development funds to pay for the costs of marketing and developing property owned by the City and supporting the local airport which is managed by the County, but co-owned by the City.

Requests for information

This financial report is designed to provide a general overview of the City of Salida's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director at finance@cityofsalida.com or P.O. Box 417, Salida, CO 81201.

City Council
City of Salida
Salida, Colorado

Independent Auditors' Report

We have audited the accompanying financial statements of the governmental activities, business-type activities, and each major fund, of the City of Salida, as of December 31, 2008, and for the year ended December 31, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Salida's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of the City of Salida, as of December 31, 2008, and the respective change in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information shown as required supplementary information in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the basic financial statements of the City of Salida. The additional supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

History and Function of the Organization

The City of Salida, Colorado (the City) is organized as a statutory city under the constitution of the State of Colorado. The City operates under a council-mayor form of government and provides the following services: public safety (fire and police), public works, culture-recreation, public improvements, planning and zoning, water and sewer, and general administrative services.

Reporting Entity

The City is organized under Colorado statutes for Cities. Management of the City is independent of other state or local governments. The County Treasurer collects taxes for the City, but exercises no control over its expense/expenditure.

The membership of the Council consists of six members and a mayor elected by the public. The Council has broad control responsibilities including the approval of the annual budget, establishment of a system of accounting and budgetary control, acquisition and disposition of property, and the establishment, organization and operation of City utilities.

In accordance with governmental accounting standards, the City has considered the possibility of inclusion of additional entities in its financial statements. The definition of the reporting entity is based primarily on financial accountability. The City is financially accountable for organizations that make up its legal entity. It is also financially accountable for legally separate organizations if City officials appoint a voting majority of the organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the City. The City may also be financially accountable for organizations that are fiscally dependent upon it. Based on the application of these criteria, the City does not include additional organizations in its reporting entity.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type* activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Property taxes, specific ownership taxes, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation
(Continued)

When both restricted and unrestricted resources are available for use, it is the City's practice to use restricted resources first, then unrestricted resources as they are needed.

The City reports the following major governmental funds:

General Fund - This fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund (Conservation Trust Fund) - This fund accounts for funds received through the State of Colorado Lottery/ Conservation Trust Fund program. These funds are required to be spent on parks and recreation. This type of fund is used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) that are restricted to expenditures for specified purposes.

The City also reports the following major proprietary funds:

Water, Sewer, and Steam Plant Theater Funds - These funds account for the activities related to offering services to the City's residents.

Budgetary Data

Budgets for governmental funds are adopted on a basis consistent with generally accepted accounting principles. For the year ended December 31, 2008, the City's General Fund budget was adopted on a cash basis. Budgetary comparisons presented for the proprietary funds are presented on a non-GAAP budgetary basis. Under this basis debt proceeds are recognized as revenues for budget purposes. Capital outlays and debt principal payments are recognized as expenditures, while depreciation is not budgeted. Annual appropriated budgets are adopted for all funds. All annual appropriations lapse at fiscal year end.

The City adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- o Budgets are required by state law for all funds. By October 15, the City Administrator submits to the City Council a proposed budget for the fiscal year commencing the following January 1. The budget includes proposed expenditures and the means of financing them. All budgets lapse at year end.
- o Public hearings are conducted by the City Council to obtain taxpayer comments.
- o Prior to December 15, the budget is adopted by formal resolution.
- o The City Administrator is authorized to transfer budgeted amounts between departments of any budgeted fund; however, any revisions that alter the total expenditures of any budgeted fund must be approved by the City Council.
- o Expenditures may not legally exceed appropriations at the fund level.
- o Budgeted amounts reported in the accompanying financial statements are as originally adopted or as revised by the City Council.
- o Encumbrance accounting is not utilized.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Fund Equity

Cash – The City pools cash resources of its various funds in order to facilitate the management of cash. Cash is pooled in interest bearing accounts which are legally authorized. Cash applicable to a particular fund is readily identifiable. The balance in the pooled cash accounts is available to meet current operating requirements.

Receivables – All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Capital Assets – The City’s capital assets are recorded at original cost. Donated assets are listed at their fair value at the date of donation. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets.

It is the policy of the City to capitalize all fixed assets costing more than \$5,000 with an estimated useful life of two or more years.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Collection, Transmission and Distribution systems -	50 years
Infrastructure -	15 to 30 years
Buildings and Improvements -	20 to 50 years
General Equipment -	5 to 30 years

The City began recording and depreciating infrastructure in 2003. The City has not retroactively added infrastructure acquired prior to January 1, 2003.

Long-Term Obligations – In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

Vacation, Sick Leave, Salary Related Payments, and Other Compensated Absences – City employees are entitled to certain compensated absences based on their length of employment. Employees are allowed to accumulate benefits up to predetermined maximums and may be compensated for these accumulated benefits either through paid time off or, in the case of vacation, are paid at termination or retirement.

Net Assets/Fund Balances – Net assets in the government-wide financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net assets represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments, or imposed by law through state statute. In the governmental fund financial statements, reservations or restrictions of fund balance represent amounts that are not appropriable, are legally segregated for a specific purpose, or are restricted by the grant agreement. Designations of fund balance represent tentative management plans that are subject to change.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues and Expenditures

Revenues and Expenditures - Revenues for governmental funds are recorded when they are determined to be both measurable and available. Generally, fees and non-tax revenues are recognized when received. Grants from other governments are recognized when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when the related liability is incurred.

Property Tax Revenues - Property taxes are levied on December 15 based on the assessed value of property as certified by the County Assessor by December 10. Assessed values are an approximation of market value. The property tax may be paid in total by April 30 or one-half payment by February 28 and the second half by June 15. The billings are considered due on these dates. The bill becomes delinquent and penalties and interest may be assessed by the County Treasurer on the post mark day following these dates. The tax sale date is the first Thursday of November.

Comparative Data

Comparative total data for the prior year has been presented in the accompanying basic financial statements in order to provide an understanding of changes in the City's financial position and operations. However, comparative data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to understand.

NOTE 2: CASH AND INVESTMENTS

Cash and Investments at December 31, 2008 were:

Type	Rating	Carrying Value
Deposits:		
Demand deposits		\$ 363,257

Restricted Cash and Investments		4,222,604
		<u><u>\$ 8,419,524</u></u>

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 2: CASH AND INVESTMENTS (Continued)

Custodial Credit Risk - Deposits

In the case of deposits, this is the risk that in the event of bank failure, the government's deposits may not be returned to it. The City's deposit policy is in accordance with CRS 11-10.5-101, The Colorado Public Deposit Protection Act (PDPA), which governs the investment of public funds. PDPA requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels (\$100,000) must be collateralized by eligible collateral as determined by the PDPA. The financial institution is allowed to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits. The institution's internal records identify collateral by depositor and as such, these deposits are considered uninsured but collateralized. The State Regulatory Commissions for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools. At December 31, 2008, all of the City's deposits as shown below were either insured by federal depository insurance or collateralized under PDPA and are therefore not deemed to be exposed to custodial credit risk.

The City considers all cash held in checking and savings accounts and all certificates of deposits as cash and cash equivalents.

Credit Risk - Investments

Colorado statutes specify which instruments units of local government may invest, which include:

- o Obligations of the United States and certain U.S. government agency securities
- o Certain international agency securities
- o General obligation and revenue bonds of the U.S. local government entities
- o Bankers' acceptances of certain banks
- o Commercial paper
- o Local government investment pools
- o Written repurchase agreements collateralized by certain authorized securities
- o Certain money market funds
- o Guaranteed investment contracts

The City does not have an investment policy that would further limit its investment choices.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 2: CASH AND INVESTMENTS (Continued)

During the year ended December 31, 2008, the City invested \$7,410,843 in Colotrust. As an investment pool, it operates under the Colorado Revised Statutes (24-75-701) and is overseen by the Colorado Securities Commissioner. It invests in securities that are specified by Colorado Revised Statutes (24-75-601). Authorized securities include U.S. Treasuries, U.S. Agencies, commercial paper (rated A1 or better) and bank deposits (collateralized through PDPA). The pool operates similar to a 2a-7-like money market fund with a share value equal to \$1.00 and a maximum weighted average maturity of 60 days. This fund is rated AAAM by the Standard and Poor's Corporation. The City also has an investment in a U.S. Treasury money market fund at December 31, 2008 rated AAAM by Standard and Poor's Corporation with a weighted average maturity of 6 days.

Concentration of Credit Risk

The City places no limit on the amount the City may invest in any one issuer.

Interest Rate Risk

Colorado Statutes require that no investment may have a maturity in excess of five years from the date of purchase. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates, other than those contained in the statutes.

The City has restricted cash and investments for capital expenditures and as required by loan agreements as follows:

	<u>General</u>	<u>Water</u>	<u>Sewer</u>	<u>Total</u>
Restricted for:				
Capital Improvements	\$ 1,810,444	\$ 931,129	\$ 364,404	\$3,105,977
Debt Service	82,000 [¶]	344,629	-	426,629

NOTE 5: RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions and employee health claims. The City provides for this risk of loss through their participation in the Colorado Intergovernmental Risk Sharing Agency (CIRSA) and the purchase of commercial insurance. The purposes of CIRSA are to provide members defined liability and property coverages and to assist members to prevent and reduce losses and injuries to municipal property and to persons or property which might result in claims being made against CIRSA, their employees or officers. The City recognizes as an expense/expenditure the amounts paid to CIRSA annually for these coverages. Contingent liability claims for the coverage have not been recognized to date after reviewing claim history and the remoteness of potential loss in excess of actual contributions by the City.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 5: RISK MANAGEMENT (Continued)

It is the intent of the members of CIRSA to create an entity in perpetuity, which will administer and use funds contributed by the members to defend and indemnify, in accordance with the bylaws, and member of CIRSA against stated liability or loss to the limit of the financial resources of CIRSA. It is also the intent of the members to have CIRSA provide continuing stability and availability of needed coverage at reasonable costs. All income and assets of CIRSA shall be at all times dedicated to the exclusive benefit of its members.

CIRSA is a separate legal entity and the City does not approve its budget, nor does it have the ability to significantly affect the operations of the unit. CIRSA is a combination of the Colorado Intergovernmental Risk Sharing Agency Property and Casualty Pool and the Colorado Intergovernmental Risk Sharing Agency for Worker's Compensation.

The City has not materially changed its coverage from previous years. Based on the lack of previous loss occurrences, the City has not recorded any liability for unpaid claims at December 31, 2008.

NOTE 6: FUND EQUITY

Certain portions of fund equity have been reserved that represent funds not available for appropriation in the subsequent year. In addition, the City has designated portions of their unreserved fund equity for certain subsequent year's expenditures which can be appropriated in future years. The following is a description of these reserves and designations:

RESERVATIONS OF FUND EQUITY

Reserve for debt service

The reserve for debt service in the general fund represents the reserve required for future interest and principal payments on the general obligation bonds. The reserve for debt service in the enterprise funds represents the reserve required to be maintained under provisions of the bond indenture.

Reserve for emergencies

This represents approximately 3% of the City's estimated 2008 fiscal year spending as that term is defined in the Colorado constitution. Under these provisions of the constitution, these reserves can be used for declared emergencies only.

Reserve for capital

This represents the portion of the general and enterprise fund equity reserved for capital improvements and expenditures, as defined in the Salida Municipal code.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 7: PENSION PLANS

The City participates in various retirement plans as follows:

OLD-HIRE FIRE PLAN

Plan description - The City of Salida, on behalf of its full-time, paid firefighters hired prior to April 7, 1978, contributes to the City of Salida old-hire fire plan, a defined benefit pension plan which is affiliated with the Colorado Fire and Police Member's Benefit Association (FPPA). Assets of the plan are commingled for investment purposes in the Fire and Police Members' Benefit Fund, an agent, multiple-employer defined benefit pension plan administered by FPPA. As outlined in Title 31, Article 30 of the Colorado Revised Statutes (CRS), as amended, the plan provides retirement benefits for members and beneficiaries according to the plan provisions as enacted and governed by the City of Salida. FPPA issues a publicly available annual financial report that includes the assets of the City of Salida old-hire fire plan. That report may be obtained by writing to FPPA of Colorado, 5290 DTC Parkway, Suite 100, Englewood, Colorado, 80111, or by calling FPPA at (303) 770-3772 in the Denver metro area, or 1-800-322-3772 from outside the metro area.

Funding Policy - Plan members and the City of Salida are required to contribute at a rate set by statute. Since all plan members are presently retired, no plan member contributions have been made for the last three years. The City of Salida's contributions to the pension plan fund for the years ended December 31, 2008, 2007 and 2006 were \$0, \$1,220 and \$1,220. These contribution amounts have been actuarially determined and were equal to the required contribution for each year.

Annual Pension Cost/Actuarial Information - For the year ended December 31, 2008, the City of Salida's annual pension cost of \$0 for the old-hire fire plan was equal to the City's required and actual contributions. The required contribution was determined as part of the January 1, 2008 actuarial valuation using the entry age normal cost method. The actuarial assumptions used in the valuation at January 1, 2008 were (a) life expectancy of participants obtained from the 1994 group annuity mortality table set back two years and increased at each age by .0002 for fire and police experience; (b) retirement age assumption of age 50 and 20 years experience; (c) salary increases of 3.5% for inflation and 9.75% downgraded to .5% by years of service for merit raises; and (d) investment return of 8.0% per year net of operating expenses. The plan asset valuation method used was based on a three-year moving average of expected and actual market values as adjusted for various factors outlined in the actuarial study.

The actuarial valuation utilized a level dollar amortization over a closed period of the longer of: (i) the years remaining until 2022, or (ii) 10 years from the valuation date; but in no case longer than the average remaining life expectancy of the covered group.

The table below represents the required disclosures for the most recent actuarial valuation and the two preceding valuations:

OLD-HIRE POLICE PLAN

Plan Description - The City of Salida, on behalf of its full-time, paid police officers hired prior to April 7, 1978, contributes to the City of Salida old-hire police plan, a defined plan affiliated with the Colorado Fire and Police Pension Association of the plan are commingled for investment purposes in the Fire and Benefit Fund, an agent multiple-employer defined benefit pension plan FPPA. As outlined in Title 31, Article 30 of the Colorado Revised Statutes (CRS), as amended, the plan provides retirement benefits for members and beneficiaries according to the plan provisions as enacted and governed by the City of Salida. FPPA issues a publicly available annual financial report that includes the assets of the City of Salida old-hire police plan. That report may be obtained by writing to FPPA of Colorado, 5290 DTC Parkway, Suite 100, Englewood, Colorado, 80111, or by calling FPPA at (303) 770-3772 in the Denver metro area or 1 800-332-3772 from outside the metro area.

Funding Policy - Plan members and the City of Salida are required to contribute at a rate set by statute. The City is required to contribute at an actuarially determined rate; the current rate is 4.55% of covered salaries. The City of Salida's contributions to the pension fund for the years ended December 31, 2008, 2007 and 2006, were \$46,130, \$38,370, and \$38,370. The contributions of the City of Salida were equal to the required contribution for each year.

Annual Pension Cost/Actuarial Information - For the year ended December 31, 2008, the City of Salida's annual pension cost of \$46,130 for the old-hire police plan was equal to the City's required and actual contribution. The required contribution was determined as part of the January 1, 2008 actuarial valuation using the entry age normal cost method. The actuarial assumptions used in the valuation at January 1, 2008 were (a) life expectancy of participants obtained from the 1994 group annuity mortality table set back two years and increased at each age by .0002 for fire and police experience; (b) retirement age assumptions of age 55 and 20 years of service or upon completion of 25 years of service if earlier; (c) salary increases of 3.5% for inflation and 9.75% downgraded to 1.25% by years of service for merit raises; and (e) investment return of 8.0% net of operating expenses. The plan asset valuation method used was based on a three-year moving average of expected and actual market values as adjusted for various factors outlined in the actuarial study.

The actuarial valuation utilized a level dollar amortization over a closed period of the longer of: (i) the years remaining until 2022, or (ii) 10 years from the valuation date; but in no case longer than the average remaining life expectancy of the covered group.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS

NOTE 7: PENSION PLANS (Continued)

OLD-HIRE POLICE PLAN (Continued)

The table below represents the required disclosures for the most recent actuarial valuation and the two preceding valuations:

Actuarial Valuation Date	Net Assets Available for Benefits	Actuarial Accrued Liability	Unfunded Actuarial Liability	Funded Ratio	Annual Covered Payroll	Unfunded Actuarial Liability as a % of Covered Payroll
1/1/2008	\$ 1,055,166	\$ 1,373,164	\$ (317,998)	76.84%	\$ -	n/a
1/1/2006	1,008,884	1,425,499	(416,615)	70.77%	-	n/a
1/1/2004	1,019,915	1,408,282	(388,367)	72.42%	49,363	-786.76%

NEW-HIRE FIRE AND POLICE

The City of Salida contributes to this statewide, defined benefit pension plan which is a cost-sharing, multiple-employer defined benefit pension plan administered by the Colorado Fire and Police Pension Association (FPPA). The statewide defined benefit plan provides retirement benefits for members and beneficiaries. Death and disability coverage is provided for members through the statewide death and disability plan that is a non-contributory plan which is also administered by FPPA. All full-time paid police officers and firefighters of the City of Salida hired after April 7, 1978, are members of the statewide defined benefit plan and the statewide death and disability plan. Title 31, Article 30 of the Colorado Revised Statutes (CR5), as amended, assigns the authority to establish benefit provisions to the state legislature. FPPA issues a publicly available financial report that includes financial statements and required supplementary information for both the statewide defined benefit plan and the statewide death and disability plan. The report may be obtained by writing to FPPA of Colorado, 5290 DTC Parkway, Suite 100, Englewood, Colorado, 80111, or by calling FPPA at (303) 770-3772 in the Denver metro area or 1-800-332-3772 from outside the metro area.

Plan members and the City of Salida are required to contribute at a rate set by statute. The contribution requirements of plan members and the City of Salida are established under Title 31, Article 30, Part 10 of the CRS, as amended. The contribution rate for members is 8% of covered salary. The City of Salida's contributions to the statewide benefit plan for the years ended December 31, 2008, 2007, and 2006 were \$81,458 \$77,716, and \$75,195, equal to their required contributions for each year.

DEFINED CONTRIBUTION PLANS

The City contributes to a simplified employee pension (SEP) on behalf of all full-time employees, except full-time fire and police personnel. The plan is administered by FTJ Fund Choice and provides that the City contributes 3% for each full-time employee and then will match employee Section 457 contributions up to an additional 3% of each employee's compensation with the City's contribution totaling \$57,877 during 2008.

CITY OF SALIDA, COLORADO
NOTES TO FINANCIAL STATEMENTS
December 31, 2008

NOTE 8: TAXPAYER’S BILL OF RIGHTS AND ELECTION QUESTION

At the November 3, 1992 general election, Colorado voters approved an amendment to the Colorado Constitution commonly known as the Taxpayer’s Bill of Rights (the Amendment). The Amendment was effective December 31, 1992, and its provisions limit government taxes, spending, revenues and debt without electoral approval.

The Amendment by its terms applies to local governments, such as the City, but excludes “enterprises” which are defined as a (1) government owned business, (2) authorized to issue its own debt and (3) receives less than 10% of its annual revenue in grants from all state and local governments. The City considers its Water and Sewer Funds to be “enterprise” funds and, therefore, considers them excluded from the terms of the Amendment.

In November 1993, an election question was put before and approved by the Citizen’s of Salida. The election question asked the citizens for the City to retain the ability to collect and retain certain revenues generated without any increase in any tax rate and expenditures and revenues on debt service, municipal operations and capital projects without the limitation of the Amendment.

For 2008, the City was required to reserve 3% of its fiscal year spending as “emergency reserves”. The Tabor emergency reserve of \$204,000 has been recorded as reserved net assets in the General Fund.

NOTE 9: SUBSEQUENT EVENTS

On February 25, 2009, the City closed a second schedule of financing under the 2008 Community Services Complex Lease Purchase. An additional \$1.1 million in financing will be used to complete the renovation of the building that formerly housed the Heart of the Rockies Regional Medical Center. In September 2008, the building was purchased jointly with Chaffee County for use as a city and county community services complex. The City obtained approximately 23,000 square feet of the facility for a cost of \$800,000.

STATE REQUIRED REPORT SECTION

City Council
City of Salida
Salida, Colorado

**INDEPENDENT AUDITORS' REPORT ON THE
LOCAL HIGHWAY FINANCE REPORT**

We have audited the basic financial statements of the City of Salida, Colorado, as of and for the year ended December 31, 2008, and have issued our report thereon dated May 15, 2009. These basic financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with U. S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of the City of Salida, Colorado, taken as a whole. The accompanying local highway finance report is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information in that report has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

Johnson, Holscher & Company, P.C.

May 15, 2009

The public report burden for this information collection is estimated to average 380 hours annually.
