

PRESS RELEASE FROM THE CITY OF SALIDA

The SteamPlant Event Center recently installed a 4k Ultra HD projector and is screening award-winning films. Admission is \$9 and is limited to 200 for each showing. The SteamPlant plans to continue increased showing of films while the community is without a movie theater. For information and a schedule of the films and other events visit SalidaSteamPlant.com.

The number of events at the SteamPlant and Rotary Scout Hut are at record levels this year. A good portion of these events bring visitors to Salida and have a positive impact on the local economy. In May the Salida Creative District will host the Colorado Creative Industries Summit. This annual conference will bring 400 visitors to town from around Colorado and showcase the vibrant creative businesses in Salida. Lodging properties, restaurants and local businesses will see a positive impact.
