2019 Asphalt Maintenance Project Update

Salida, Co – As part of roadway capital improvement projects within the City of Salida, the City has contracted work for asphalt maintenance including crack sealing, chip sealing, overlays, and asphalt point repairs. These types of maintenance activities are typically completed on roads with minor to moderate distress but not requiring reconstruction. Major work activities will be on Holman Avenue, Airport Road, New Street, Scott Street, Chilcott Street, Wood Avenue east of Oak Street, and 5th Street.

Chip sealing, overlay, and asphalt patching has been completed. Seal coat applications will be completed Thursday September 5th and Friday September 6th. Temporary closures may occur during this time so it is advised that you plan an alternate route when work is occurring.

Your safety is a priority and we appreciate your patience while this project is underway.

For any questions, please contact Public Works at 719-539-6257.
