Sanitary Sewer Rehabilitation

Salida, CO – The City has contracted with Avalanche Excavating, Inc. to begin reconstruction of Sanitary Sewer Main infrastructure between Park Avenue and Shavano Avenue. Work on this project will begin on April 4, 2019 and is expected to last approximately two months.

Work is primarily in alleys, however, there will be periodic closures at Park Ave., Routt St. and Pitkin St. After installation of the sewer main is complete, street and alley repairs will be completed. The contractor plans to backfill sewer mains as they go to limit alley restrictions as much as possible

Your safety is a priority and we appreciate your patience while this project is under way. Please find alternate routes.

For more information, please contact Public Works at 719-539-6257.
